

Piccirillo Sciencetelling™

Not too long ago,
Science and Storytelling
were accidentally mixed up.

Here is the result...

*Library floor. One child among many.
Waiting in anticipation.*

*BAM! The show begins with the first
experiment.*

*He sees it, he hears it, he feels it.
The story is alive. Science is learned.
And on the way home, he asks his mom...
“When can we go back?”*

An interactive, dynamic science program by Andrew Piccirillo, the ScienceTeller, combines live experiments with high-energy storytelling for an approach to science that is both educational and fun!

- This FREE program is designed for kids ages 5 – 12. •

Tuesday, June 23 @ 3:00 p.m.
